This is the latest desk statement that I have--David is not in yet so I cannot confirm just now so I am copying him. I assume you are asking for this and not the message that was sent to the residents? FYI, I am going into a Water Hot Issues meeting in five minutes and this is on the agenda. Do you want the briefing paper for that? Also FYI, not sure you know this, but NY is sending a water truck to Dimock today and it is getting some press, celebrity involvement, etc.
